

spline branch (the swapped component: 7 basis families)

parameters $= d_{\text{out}} d_{\text{in}} G + d_{\text{out}} d_{\text{in}}$
 layer 1, $2 \rightarrow 10$: $100 + 20 = 120$
 layer 2, $10 \rightarrow 2$: $100 + 20 = 120$
total $[2, 10, 2], G = 5$: **240**
